CLIP-IN STEP TILE CEILING SYSTEM

The Innovative Step Shaped Ceiling is a rectangular ceiling with a front decorative surface and peripheral buckle under the side of decorative surface. The decorative surface and the peripheral buckle sides are both connected with a step face. Once the ceiling tiles are fitted to each other, they form straight and beautiful grooves through the splicing of the adjacent steps. After installation of the ceiling, the edge contour becomes more clear and obvious, with stronger stereo perception and better visual effect. The product holds advantages of low production cost, convenient installation, beautiful appearance and durability for usage, etc.

THE HEXAGONAL TYPE CEILING SYSTEM

The Hexagonal Metal Ceiling is a 3D shaped Hexagonal Ceiling System, with the strength and flexibility of aluminum, which is corrosion resistance added with weather resistance paint. It can withstand deformation under high wind pressure and can be cut, slit, stamped, slotted, drilled, curved and compressed. Therefore, it is widely used in the construction industry: office buildings, shopping malls, stations, subways, airport buildings, modern large hangars, large stadiums, large clubs, and so on.

HOOK-ON TILE CEILING SYSTEM

Hook-On Tile Ceiling presents a sense of fashion and modern design inspiration. This ceiling is stable and easy to assemble and remove manually without the usage of any tools. Moreover wide insulation wool can be fitted in to create perfect sound-absorbing function. The unique hooking up design controls the mobility between the tiles to ensure tighter and tidy gaps.

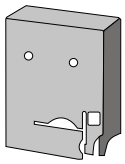

Hook-On Tile comes with the advantages of:
Good close splicing and unidirectional parallel keel.
Convenience of maintenance: this structure is equipped with unique maintenance port design for maintenance supporting,
Strong wind resistance: Each Tile is equipped with a wind-proof clamp which makes it suitable for outdoor application, with no effect on the appearance, ensuring the whole ceiling being uniform and in good appearance.
